PROFESSIONAL SUMMARY

Driven B.Tech Information Technology student and aspiring tech entrepreneur with a deep focus on Cybersecurity, network defence, and data analytics. Passionate about continuous learning and mastering emerging technologies to build secure, scalable digital solutions. Hands-on experience in machine learning data privacy, full-stack development, cloud infrastructure, and participating in high-intensity national hackathons like Smarthathon 2.0.

EDUCATION

Sri Manakula Vinayagar Engineering College (SMVEC) *Puducherry, India*
Bachelor of Technology in Information Technology

- Expected Graduation: May 2028

Krishnaswamy Memorial Matriculation Higher Secondary School *Puducherry, India*
Higher Secondary Course Certificate (HSC)

- Percentage: 77.83%

TECHNICAL SKILLS

- **Cybersecurity & Networking:** Network Security Concepts, Cisco CCNA Protocols, AWS Security & Foundations
- **Programming Languages:** Python, Java, C, C++, SQL
- **Web Frameworks & Databases:** Full-Stack Development, HTML5, CSS3, MongoDB, MySQL
- **Data Science & Machine Learning:** Machine Unlearning Systems, Python for Data Science, Data Analytics
- **Soft Skills:** Entrepreneurial Mindset, Technical Leadership, Problem-Solving, Team Collaboration

TECHNICAL PROJECTS

Selective Machine Unlearning Engine

- Engineered a targeted data erasure engine capable of selectively removing specific data subsets from trained machine learning models without requiring complete model retraining.
- Implemented parameter alignment algorithms to verify data removal while maintaining baseline model accuracy, performance, and operational privacy integrity.

JARVIS – Voice-Controlled Navigation Software for the Elderly

- Designed and developed an accessible, voice-driven navigation application tailored to assist elderly users with hands-free guidance and high-usability UI/UX.
- Integrated real-time speech recognition interfaces to process verbal commands and provide clear auditory and visual directional cues.

AI-Powered Internship Matching Platform *Smarthon Hackathon*

- Developed a machine learning-driven platform connecting applicants to relevant internship opportunities through role-specific multi-portal interfaces.
- Automated dynamic candidate screening pipelines, reducing manual recruitment overhead during high-pressure hackathon timelines.
- Collaborated with a cross-functional engineering team to rapidly prototype, test, and pitch the solution under tight deadlines.

CERTIFICATIONS

- NPTEL Online Certification: Programming in Java – Ministry of Education, Govt. of India (Score: 55%)
- Infosys Springboard: Python for Data Science
- Infosys Springboard: Basics of Python
- MongoDB Certified: MongoDB Basics for Students – MongoDB Academy
- AWS Academy Cloud Foundations – Amazon Web Services
- Cisco Certified Network Associate (CCNA): Switching, Routing, and Wireless Essentials

ACHIEVEMENTS & LEADERSHIP

- **Participant | SMARTHATHON 2.0 (National Hackathon):** Competed in a 24-hour national-level hackathon organized by Larsen & Toubro and IEEE Madras Section at St. Joseph's College of Engineering.
- **Participant | TCS CodeVita Season 18:** Competed in Tata Consultancy Services' global competitive coding contest, solving complex algorithmic challenges.

LANGUAGES

- English: Professional Working Proficiency
- Tamil: Native Proficiency
